Snapshot report

Under the agreement for 2015
Andergrove State School received $119,400

Our full 2015 agreement can be found here: www.andergrovess.eq.edu.au

Our school strategies are showing substantial progress toward our targets

After reviewing our Great Results Guarantee agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our strategies as needed to ensure every student succeeds.

Strategies implemented include:

- Providing professional development for staff to enhance their ability to deliver balanced reading and numeracy programs.
- Greater monitoring and review of student performance data in reading and numeracy to continually monitor and provide targeted teaching for students.
- Providing intervention support plans, Individual Learning Guarantees (ILG) and Individual Curriculum Plans (ICP) for students who are at risk of not meeting national minimum standards (NMS) in reading and numeracy or are exceeding well above year level expectations.
- Introducing a range of strategies to motivate students to read more for pleasure.
- Trialing a range of numeracy warm ups that promote thinking and reasoning in Math.

Great Results Guarantee Funding was used to

- Employ a Speech Therapist in Term 1 to deliver weekly Oral Language and Metalinguistics programs to Prep and Year 1.
- Employ additional teachers and teacher-aides to deliver targeted intervention programs.
- Provide a daily ‘Homework Club’ tutorial service for students who need additional help to complete homework tasks and/or additional literacy support.
- Purchase resources including on-line subscriptions to enable differentiation in class reading and Math programs.
- Build staff capacity through collegial coaching and a range of internal and external professional development opportunities.
- Build parental capacity to support their child’s education by providing information sessions with a focus on literacy, numeracy and behaviour management strategies.
